What kind of place is The Science Museum?

Welcome to The Science Museum!

For more than fifty years, the Museum has provided fun, interactive exhibits for you to discover by yourself the wonders of science. In here, you can manipulate and touch, talk and play with items. Each of them has been carefully designed to be challenging but also interesting, and even if you don't understand Japanese, you should be able to grasp what you are playing with is about.

As progress in science and technology goes very fast, we are constantly upgrading and renewing our exhibits. Indeed, we want you to have access to the hottest scientific and technological advances!
