

## Regarding barrier-free access and viewing of exhibits

- Multipurpose restrooms catering for those in wheelchairs are located on the 1st, 3rd and 4th floors.
- Wheelchairs are available to be borrowed. Please inquire to the staff on the 1st floor ticket counter.
- \* Please note that wheelchairs are limited in number.

- Writing devices are available at the 1st floor ticket counter.

**⚠ The following exhibition rooms include effects and experiments that sudden and very loud sounds.**

2D Waku Eco Motor Land, 3C Denki Factory, 3D Electro Hall "Link to Cyberspace", 4F Construction World, 4I Science Stadium, 5D Mechanics, 5E Optics, 5G Orienteering, 5H Sounds, 5I Works

Magnifying glasses are available at the 1st floor ticket counter.

**⚠ The following exhibition rooms include effects that emit flashing lights or very bright lighting:**

3C Denki Factory, 4I Science Stadium, 5E Optics, 5F Illusion A, 5G Orienteering, 5I Works

**⚠ The following exhibition rooms include effects and experiments involving dark spaces:**

3C Denki Factory, 3D Electro Hall "Link to Cyberspace", 4C Tetsunomaru-koen 1 chome, 4B Synra Dome, 4I Science Stadium, 5E Optics, 5F Illusion A

**⚠ The following exhibition rooms contain effects that include sensory illusions:**

5F Illusion A, 5G Orienteering

**⚠ The following exhibition rooms contain effects and experiments that generate electromagnetic fields or static electricity:**

2D Waku Eco Motor Land, 3C Denki Factory, 4C Tetsunomaru-koen 1 chome, 5G Orienteering, 5I Works

There is a restroom usable by ostomates on the 3rd floor.

\*Note that hot water is not dispensed.

- There are baby seats in the multipurpose rooms on the 1st, 3rd and 4th floors, and in the 5th floor lactation space.
- There are baby chairs in the multipurpose rooms on the 1st, 3rd and 4th floors.
- There is a lactation space on the 5th floor. There is no hot or cold water.
- Please ask at the Science Museum offices on the 3rd floor about borrowing the baby cars.
- \*Please note that wheelchairs are limited in number.

Automated external defibrillators (AED) are installed at the right side of the 1st floor main entrance and the Science Museum office on the 3rd floor.

The First Aid Room is inside the Science Museum offices on the 3rd floor (there are no medical staff in attendance so it is not possible to make diagnoses or provide medicine).

Please ask the Science Museum office staff on the 3rd floor about places where you can pray.

Dogs to assist the persons with disabilities (guide dogs, service dogs and hearing assistance dogs) are permitted to enter the building.

Please check the information board in the Museum for information about free Wi-Fi.

## Requests to visitors

Smoking is prohibited in all parts of the Museum, as is the use of electronic and heated tobacco products (vaping).

Drinking and eating inside the exhibition rooms are prohibited. Please use designated areas (such as the Group Lounge, etc.) to eat and drink in.

- Do not run inside the Museum as it is dangerous.
- Please take care of children to ensure no accidents or their getting lost.
- The escalator is solely for ascending until 16:30. Please use the staircases to descend.
- Please don't leave your baggage behind while you look around the Museum.
- Either use the coin lockers on each floor or carry your baggage by yourself.
- Please do not carry baby cars on the escalators as it is dangerous.
- In the case of emergencies, please follow the instructions of Museum staff.

## Science Museum Information

### Opening hours

09:30 – 16:50  
(last admission at 16:00)

### Closing days

Certain Wednesdays\*

(if the day is a public holiday, the next weekday)

Year-end holidays (December 28-January 3)

\*The Museum opens on Wednesdays during the long school vacation periods.

### Admission fees

|             | Adults  | 65 or over | Senior and Junior high school students | Children (aged four or over) |
|-------------|---------|------------|--|------------------------------|
| Individuals | 950 yen | 850 yen    | 600 yen                                | 500 yen                      |
| Group       | 710 yen | 710 yen    | 450 yen                                | 350 yen                      |
| Special*    | 320 yen | 320 yen    | 220 yen                                | 160 yen                      |

\* Those with a Disability Certificate and one accompanying person

Tokyo Metro Tozai Line: About a 550m-walk from Exit 1b of Takebashi Sta.(T-08)  
Tokyo Metro Tozai Line, Hanzomon Line and Toei Subway Shinjuku Line: About an 800m-walk from Exit 2 of Kudanshita Sta. (T-07/Z-06/S-05)

Shuto Expwy Inner Circular Route (outer loop): Straight after the Daikancho Exit  
Shuto Expwy Inner Circular Route (inner loop): Straight after the Kitanomaru Exit

Kitanomaru Park parking lot 08:30~22:00

## GUIDE MAP

Welcome to the Science Museum!

There are exhibition rooms displaying about 20 themes on the four floors from the 2nd to the 5th floor. You will be able not only to view the exhibits, but touch, move, drive or manipulate them and experience science and technology. Moreover, every day we host exciting experience-based programs including experimental shows and handicraft classrooms! Please try participating in them!

| 5th Floor |  | Restroom, Multipurpose Restroom, Coin Lockers (deposit) |
|-----------|--|---|
| 4th Floor | ● Light meals and refreshments (Closed : Irregularly)<br>● Group Lounge/Event Hall                               | Light meals and refreshments, Group Lounge/Event Hall   |

- Restroom
- Multipurpose Restroom
- Coin Lockers (deposit)
- Baby Seat (in the lactation space for the 5th floor)
- Light meals and refreshments
- First Aid Room
- Public Telephone
- Group Lounge/Event Hall
- Information
- Automated External Defibrillator (AED)

# Exhibition Rooms Floor Map

◆ The museum closes at 16:50 daily. Even if you are waiting in line or in the middle of your turn, some exhibits may have to end. We thank you for your understanding.

## 2nd Fl.

### 2D Waku Eco Motor Land

**Motor vehicles**

Here you can learn through experiencing the fun of cars and motorcycles, safety and environmentally-friendly technologies.  
Note: Please note that some of the equipment cannot be experienced due to height restrictions.

### 2E Monodukurium

**Manufacturing**

This is an exhibition of all sorts of equipment and products related to the evolution of "monodukuri" (manufacturing) technology. Among other exhibits, you can see a laser processor.

★ Paid Service ¥500 yen  
● Ruler/acrylic medal manufacturing line  
● Capsule toy machine "Kagikan gacha"

### 2F Bicycle Plaza

**Bicycle**

Here you can learn about all the changes in the shape and technology of bicycles from past to present.

### Group Lounge

Please check the museum information to see if the group lounge is available.

### 4I Nature Contact

Let's Think about the Future of the Earth

## 3rd Fl.

### 3D Electro Hall

**"Link to cyberspace"**

Electrical machinery, electrons, information, communications

Here you will find an introduction to the links arising from the fusion of the two worlds of "things" and "information."

### 3E Atomic Station Geo-Lab

**Nuclear power**

Here you can experience and learn about the various forms of energy in the world, the nuclear fuel cycle and deep geological repositories.

### 3F Medicine Laboratory

**Medicine**

Here is an introduction to the history of medicine, its development and how to use it safely. Please take part in the introductory medicine researcher rally.

### 3C Denki Factory

**Electricity**

Move the exhibits with your own hands to create all sorts of phenomena showing electricity.

- Do you know coal?
- Mechanism of meteorological equipment
- Mt. Fuji produced by ALOS (Advanced Land Observing Satellite)
- Bearing laboratory
- Look inside the motor!

### 3I The world of motors

**Motors**

Here is an introduction to the basic principles of how motors rotate, their practical use and application with modeling using motors and more.

### 3E Coin Lockers

**Men's Restroom**  
**Women's Restroom**  
**Baby Seat**

Science Museum Office / First Aid Room

## 4th Fl.

### 4I Science Stadium

An experimental show is presented that seeks to find the principles and technologies of science used in everyday products around us.

### 4F Construction World

**Construction**

In this exhibition, that takes the form of a construction site, you can try out tower cranes, Earthquake protection device and enjoy all sorts of construction-related experiences.

### 4C Tetsunomaru-koen 1-chome

**Steel**

In this exhibition space that is based on the image of a park, you can feel with your own hands the fascination and amazement of steel.

### 4B Synra Dome

**FOREST**

## 5th Fl.

### FOREST

Footsteps of Rallying Education, Science, and Technology  
There is no commentary or explanation of the exhibitions in FOREST. It's a place where you can look for your own ways of playing and enjoying yourself, as well as creating your own unique experiences.

### 5I Works

**FOREST**

In this room, you can experience giant soap bubbles, whirlwind devices, and exhibits created by the staff.

● Aerial Gallery

### 5D Mechanics

**FOREST**

Here, you can experience the structure and movement of essential parts of a machine by moving your own body.

### 5E Optics

**FOREST**

Experience each exhibit and explore the various properties of light.

### 5C Future - Quantum World

**Quantum technology**

Here introducing the future society made possible by quantum technology.

### 5H Sound

**FOREST**

Sound is not just something our ears hear, it is something with various forms.

### 5F Illusion A

**FOREST**

Is the brain easily fooled? Here, you can experience a variety of illusory experiences.

### 5B Illusion B

**FOREST**

Just by changing your perspective a little, you can come across unexpected events.

# Event program

All program are only available in Japanese language

◆ The event programs are all subject to change, so please check the website or the exhibition room for details.  
◆ Some event programs require numbered tickets to be distributed starting at the opening time of the day.

### 4B Synra Dome

Quota: 62 people each time \*Note: Admission not possible after program starts.

### Science Live Show "UNIVERSE"

Held on 2nd&4th Saturdays **Free**  
This is a live science show conducted by researchers at the forefront of their fields.  
14:00- / 15:30-  
Length: About 40 mins

### 4C Tetsunomaru-koen 1 chome

### Experimental Classroom

Held on weekdays  
Experience the fascination of steel as a material through experiments!  
11:00- / 15:00-  
Length: About 15 mins

### Handicraft Classroom

Held on weekends and public holidays **Free**  
Reservations have to be made by the person attending  
Quota: five people each time Eligible participants: Elementary school students and older  
You can experience the fun of manufacturing through handicrafts using steel and metal.  
10:30- / 14:00-  
Length: About 20 mins

### 4I Science Stadium

Quota: 36 people each time \*Note: Admission not possible after program starts.

### Light and color experimental room

**Free**  
The mechanisms of light and color used in cameras and printers are explained through various experiments. 11:00-  
Length: About 15 mins

### Let's think about the worlds water through "filtering"

Held on weekdays **Free**  
An introduction to filtering, which is a useful technique in solving problems in daily life and water shortages. 13:30-  
Length: About 15 mins

### Bath Time Science

Held on weekends and public holidays  
Watch experiments on buoyancy and a show using bath salts. 10:00-  
Length: About 15 mins

### The power of lemons

Held on weekends and public holidays **Free**  
This is an experimental show where you can learn through experiments about the limonene and citric acid contained in lemons. 14:30-  
Length: About 15 mins

### 3C Denki Factory

### Electricity, magnets and power

Not held on Tuesdays  
This is an experimental show about electricity and magnets using original experimental devices. 11:30- / 14:00- / 15:30-  
Length: About 15 mins

### 3E Atomic Station Geo-Lab

\*Note: Admission not possible after program starts.

### Lets' look at and measure radiation

This is a chance to observe the presence of natural radiation using measurement equipment. 10:50- / 14:15-  
Length: About 15 mins

### What is geological disposal?

Quota : 6 people each time **Free**  
An interactive experience where you can learn about the future of energy in society and deep geological repositories. 9:55- / 11:30- / 12:25\* - / 13:10- / 14:35\* - / 15:15-  
\* The show is sometimes subject to suspension.  
Length: About 10 mins

### 3F Medicine Laboratory

### Challenge! Researching new medicine

Experiments focusing on the shape of medicines, and experiments to precipitate crystals from aqueous solutions are conducted. 11:00- / 13:30- / 15:00-  
Length: About 15 mins

### 2D Waku Eco Motor Land

### The mechanism making cars run

Held on Weekends, Monday  
The characteristics of the running dynamism of cars are looked at using original models made by visitors. 11:30- / 15:00-  
Length: About 15 mins

### 2E Monodukurium

Quota: 10 people each time

### Laser original ruler

Held on Weekends  
Fee charged **Free** Restricted to certain visitors  
Manufacturing experiences original rulers. 11:00- / 14:00-  
Length: About 60 mins
